Projects

MBIT Solutions GmbH

During my internship, I worked on one project:

- Webshop <https://www.bartl-bringts.at/>

Open Source

I'm an active contributor to various Astro repositories, mainly:

- Starlight <https://github.com/withastro/starlight>
- Docs <https://github.com/withastro/docs>
- Plugins https://github.com/trueberryless-org/starlight-*

Personal Websites

Moreover, I have some personal websites I'm running:

- Mutanuq <https://mutanuq.trueberryless.org>
- Blog <https://blog.trueberryless.org>
- Videos <https://videos.trueberryless.org>
- True Tracker <https://true-tracker.trueberryless.org>
